

FRED

Fred is a practical fridge-freezer box. So it is not only a cool box, it can also freeze.

With the intuitive display, you set the temperature down to -20 °C. And because Fred works through a compressor, you won't suffer from condensation. That's nice! Moreover, if you do have some moisture in the cooler due to the products you put in it, you can easily drain it via the drainage plug at the bottom of the box.

Fred uses electricity and can be connected directly to the wall socket or in the car or boat thanks to the supplied 230 Volt and 12/24 Volt adapter. Moreover, the compressor also works on the 12/24 Volt adapter, which means you won't suffer from condensation in the car or boat.

Moreover, Fred has some extra features to make your outdoor adventure even more comfortable. Fred has automatic internal lighting, so you can see what you are taking out of the fridge-freezer even when it is dark. The display also has a USB port for charging your phone or other devices, and the lid has 4 spots where you can put a can or glass of drink without them falling over easily.

Fred has a capacity of 40 litres, which means you can put up to 42 cans of drinks in it!

Product number	388015
EAN	8713415388015
Display	yes
Content	40 l
Number of fridge/freezer compartments	1
Content cool/freeze compartments	40 l
Control	control panel
Max. sound levels	45 dBA
Compressor	
ECO mode	yes
Lighting	yes
USB port	yes
Bottle opener	no
Wheels	no
Accessories (incl.)	12/24V adaptor, 230V adaptor
Dimensions	36,4 x 63 x 47 cm
Weight	13,3 kg
Powered by	electric
Connection voltage	12V/24V, 220-240/50-60 V/Hz
Energy class	D
Warranty	2 year
